PROFILE

Full-stack developer and technical consultant with 8+ years across FinTech, E-commerce, Media, Automotive, and IoT, spanning agency, employed, and independent freelance engagements. Enterprise consulting background in AI chatbot integration (AWS Bedrock, Azure OpenAI), cloud-native architecture, and full-stack delivery. AWS Certified Developer Associate. Available now for contract and subcontract engagements alongside ongoing consultancy work.

KEY EXPERIENCE

Consultant II & Fullstack Developer — Concept Reply GmbH

Munich, Germany

- Led frontend architecture for scalable enterprise and AI-driven applications (Next.js, React.js, TypeScript); built AI-powered chatbots on AWS Bedrock (Claude) and Azure OpenAI
- Developed backend services (Node.js/Express, DynamoDB, Python/FastAPI) and automated CI/CD pipelines (GitHub Actions → ECS/ECR)

Fullstack Developer — BMW Group

Munich, Germany

- Converted manual procurement processes into dynamic React.js + Node.js web apps with RBAC and audit tracking
- Built real-time chat and wizard-style workflow UIs, reducing email-based communication by 60%

CloudOps Engineer — Brose

Bamberg, Germany

- Automated CI/CD pipelines (PowerShell, GitHub Actions) for internal enterprise applications
- Integrated IAM policies across AWS and Microsoft Azure for cloud security

Software Development Engineer I — Craftsmen Limited

Dhaka, Bangladesh

- Built a cloud-native newsroom platform (React.js, GraphQL, AWS) supporting live TV broadcast production

Junior Software Engineer — Graaho Limited

Dhaka, Bangladesh

- Built RESTful Django services for AI-powered applications, including a cow-classification ML tool for an agri-client

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Golang, Python, Bash
